**DIVERSIFIED EXPANDS OPERATIONS TO BINGHAMTON, NY**

SCRANTON, Pa.–July 17, 2007–Diversified Information Technologies, headquartered in Scranton, Pa., has announced it has concluded an agreement to lease 17,000 square feet at 235 Industrial Park Drive in Kirkwood, N.Y. for the next ten years.

Diversified, a leader in information management services, has 22 facilities in the United States and abroad. According to Clifford Melberger, president and chief executive officer, "In today's demanding business environment, companies can not afford being unavailable to their clients. Diversified will be leveraging this facility to provide safe and accessible computing and workplace business continuity services satisfying ever-growing compliance and risk management requirements." Diversified will also offer its other data management services, including document archiving and scanning.

Mr. Melberger indicated that the company is strategically expanding in those regions requiring data recovery facilities within 100 to 150 miles of their primary location, for safety and ease of accessibility in the event of unforeseen circumstances.

Diversified recently opened a 223,000-square-foot facility on 180 acres in Gordonsville, Va., 110 miles from Washington, D.C., to expand its capabilities and services to the Washington, D.C., and Richmond, Va. markets. He noted that the most important considerations in finding a suitable location are proximity to telecommunications and transportation infrastructure, as well as access to a well-trained workforce that is able to function in today's security-intensive environment. The facility in Kirkwood provides Diversified with both.
